Dear Ms. Brady:

The Louisiana State Board of Practical Nurse Examiners has received a report regarding your practice as a licensed practical nurse. The report is concerning an incident that occurred at Crescent City Physicians. It alleges that on or about November 9, 2018, it was suspected that you had consumed alcohol while on duty. Although you denied consuming alcohol while on duty, you admitted to drinking alcohol the night before. You consented to alcohol testing. Results of the testing taken at 3:55 p.m. and 4:10 p.m. revealed alcohol levels of 0.098% and 0.093%, respectively. Your employment was terminated.

Louisiana Revised Statutes, 49:961 (C), in pertinent part, provides: "If the agency finds that public health, safety, or welfare imperatively requires emergency action, and incorporates a finding to the effect in its order, summary suspension of a license may be ordered pending proceedings for revocation or other action." LSA-R.S. 49:961(C).

The Board has determined that the allegations against you are sufficiently serious to **summarily suspend your LPN license**, in accordance with the above cited authority, and hereby, issues the following Order:

ORDER

IT IS HEREBY ORDERED, that based on the information and/or record(s) obtained by the Louisiana State Board of Practical Nurse Examiners, and a finding "that public health, safety, or welfare imperatively requires emergency action", in accordance with LSA-R.S. 49:961(C), the LPN license of the above named respondent, **Bonnie Brady**, is hereby summarily suspended, pending proceedings for revocation or other action, in accordance with Louisiana law.

Louisiana Revised Statute, Title 37, Chapter 11. Nurses, Part II. Practical Nurses, Section 969, et. seq.

Furthermore, you should immediately submit to our office a detailed narrative response to the allegation as well as submit a history of your employment for the last five years.

In the course of an investigation of any report of substance abuse or diversion of narcotic, it is usual for the board to ask for a comprehensive chemical addiction assessment from a State Board approved psychologist/psychiatrist/addictionologist. This assessment should contain both objective and subjective assessments to arrive at a diagnosis and treatment plan of care. This evaluation is to be used by the board to determine if a substance abuse problem exists and if so, to what extent treatment may be needed.
